TRIMAX STEALTH//S3

The STEALTH SERIES 3 has been designed to give a higher quality of cut, operate in a wider range of conditions, be safer, more robust, easier to operate and take less time to maintain than any previous STEALTH.

Backed by 30 years' of experience in market, the concept of Stealth Series 3 was born from the demand of our Australian customers for a mower that was more versatile in terms of long grass performance and more user friendly for both the operator and the workshop.

Backed by our industry leading 3-year warranty and our parts and technical support team, we know the Stealth Series 3 to be the best linkage wing mower for passive and active turf in the market.

SPECIFICATIONS

340

Cutting Width	3.4m (11' 2")
Overall Width	3.55m (11' 8")
Transport Width	2.42m (7' 11")
Overall Length	1.63m (5' 4")
Height (wings up)	1.21m (3' 11½")
Cut Height Range	10 - 90mm (¾" - 3½")
No. of Blade Spindles	5
Approx. Weight	940kg (2070lbs)
Min PTO Output	70hp

**Minimum PTO output is a guide only. Requirement varies with the type of work and the terrain*

"The Stealth has brilliant decks with excellent grass dispersion and minimal greasing required. We can just jump in and cut grass!"

- ROSS HAMNER | Downer, Auckland, NZ

KEY APPLICATIONS.

✓ Municipal & Contractors ✓ School & Sports Fields ✓ Racecourses ✓ Aviation ✓ Lifestyle & Estates

WHAT'S NEW ON STEALTH/S3

We've reduced the need for greasing through the introduction of new features such as SteadFast maintenance-free spindles and composite maintenance-free bushes. Stealth wing locks can now be operated from inside the tractor cab. Modifications have been made to the cutting chamber and the baffle design for improved cut quality and easy cleaning.

PRODUCT FEATURES.

LOCTEK

A stubless roller bearing system for vastly improved roller retention, alignment, bearing life and minimal maintenance.

LOW MAINTENANCE

Reduced greasing requirements mean operators can spend more time mowing and less on maintenance.

LAZERBLADEZ™

Available in up-lift and flat formation to suit mowing requirements, the unique tilt forward design minimises hang back in tough conditions.

GREATER MOWING VERSATILITY

The improved cutting chamber and baffle design directs airflow from the blades out and over the rear roller for a better cut and spread.

EASY TO CLEAN

The improved belt chamber design results in easy cleaning, with the front openings allowing any grass to be easily washed out or removed.

EASY HEIGHT ADJUSTMENT

Clearly displayed stainless steel height indicators allow the easy adjustment of cut heights without having to raise or lower the wings and deck.

ANTI-WEAR SKIDS

Anti-wear skids reduce wear on side channels when operating in rough or uneven terrain.

STAND ON COVERS

Enables safe and easy access to the rear of the tractor when coupling to the mower. Quick release latches allow easy removal for cleaning and servicing.

*OPTIONAL FEATURES.

✓ ROLLER SCRAPERS

Cleans rollers and reduces clumping in wet conditions.

✓ QUATTRO BLADES

Four blades (flat, upturned or mixed) per spindle for a finer cut.

✓ SERVICE STANDS

Lockable stands for safe underside access.

✓ LIGHTING KIT WITH STORAGE BRACKET

LED road lights, safety triangle, and bracket for storage box.

✓ STORAGE BOX

Easy access to spare parts and tools.

✓ GALVANIZED SURFACE COATING

Protect against corrosion in harsh environments.

✓ ELECTRIC UNLOCK

Upgrade to electric actuation for the mower wings' transport lock.
